LICENSEES: Entergy Nuclear Operations, Inc.

FACILITIES: Palisades Nuclear Plant

SUBJECT: SUMMARY OF MARCH 20, 2017, PUBLIC MEETING WITH ENTERGY NUCLEAR OPERATIONS, INC. REGARDING THE CYBER SECURITY PLAN IMPLEMENTATION SCHEDULE (CAC NO. MF9294)

On March 20, 2017, a Category 1 public teleconference meeting was held between the U.S. Nuclear Regulatory Commission (NRC) staff and representatives of Entergy Nuclear Operations, Inc. (ENO). The purpose of the meeting was to discuss a proposed license amendment request (LAR) to change the Milestone 8 full implementation date of the cyber security plan for Palisades Nuclear Plant (PNP). The meeting notice and agenda are located in the Agencywide Documents Access and Management System (ADAMS) at Accession No. ML17053A629.

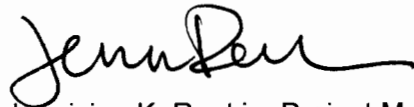

The licensee presented information on the background, basis, and content of the proposed application, which is available at ADAMS Accession No. ML17080A178.

The licensee plans to submit a LAR to change the CSP Milestone 8 implementation date from December 15, 2017 to May 31, 2020. This supports the PNP decommissioning schedule where the licensee plans to permanently cease power operations on October 1, 2018. ENO also described the technical basis for the change and the status of Milestones 1 through 7. ENO plans to submit the LAR by the end of March 2017.

There were no public comments made at this meeting and no public meeting meeting feedback forms were received.

A list of meeting attendees is enclosed.
