

**Palisades Nuclear Plant (PNP)
License Amendment Request (LAR)
Pre-Application Meeting**

**Cyber Security Plan (CSP)
Milestone 8 (MS8)
Implementation Schedule Change**

March 20, 2017

Agenda

- **Introductions**
- **Request / Need**
- **Change Basis**
- **PNP CSP Status**
- **License Change / Schedule**
- **Questions**

Request / Need

- Change CSP MS8 date from December 15, 2017 to May 31, 2020
- Supports PNP Decommissioning Schedule
 - Beyond Permanent Cessation of Power Operations
 - Beyond All Fuel Removed from Reactor Vessel
 - Beyond Minimal Risk of a Fuel Cladding Zirconium Fire
- Allows prudent use of PNP resources on activities of higher nuclear safety significance

Change Basis

- Submittal of Certification for Permanent Cessation of Power Operations on October 1, 2018
- Expect significant reduction in Critical Digital Assets post permanently defueled reactor
- Addresses Cyber Security Directorate Staff Criteria
- Similar to Palisades Amendment 259 CSP M8 Schedule Change to December 15, 2017

PNP CSP Status

- CSP Milestones 1 through 7 have been completed
- NRC inspection of Milestones 1 through 7 completed
- Findings in NRC Milestones 1 through 7 inspection report closed by a NRC follow-up inspection

License Change / Schedule

- PNP License wording – Proposed Change
 - The Palisades CSP was approved by License Amendment 243 as supplemented by changes approved by License Amendment Nos. 248, 253, 259, and XXX.
- PNP LAR Timeline
 - Plan to submit on March 30, 2017
 - Request approval by December 15, 2017
