**SUBJECT: RESPONSE TO NRC INSPECTION REPORT 030-35486/2016-001 AND
NOTICE OF VIOLATION**

Dear Mr. Laffin:

On November 9, 2016, the U.S. Nuclear Regulatory Commission (NRC) cited International Isotopes, Inc. for one or more security-related violations of NRC requirements. Inspection Report 030-35486/2016-001, with enclosed Notice of Violation (Notice) (ADAMS Accession Number ML16312A374), required you to respond in writing within 30 days. You responded by letter dated December 2, 2016 (ML16347A313), in which you disputed a security-related violation. On February 15, 2017, the NRC provided its detailed review of your response, in which the NRC concluded that the Notice adequately described the finding (ML17047A187). As a result, the violation was upheld and you were required to provide a response to the Notice. You responded by letter dated March 9, 2017 (ML17069A494).

After reviewing the information provided in your response to the Notice, we have concluded that your completed and proposed actions appear to adequately address the regulatory noncompliance described in the Notice. We will review your implementation of these corrective actions during a future inspection to determine whether full compliance has been restored and whether compliance will be maintained.

In accordance with 10 CFR 2.390 of the NRC's "Agency Rules of Practice and Procedures," a copy of this letter will be made available electronically for public inspection in the NRC Public

Document Room or from the NRC's Agencywide Documents Access and Management System (ADAMS), accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

Sincerely,

/RA/
