General Comment

I am a second generation proud Texan, and I am writing to state my fierce opposition to ID NRC-2016-0231, Waste Control Specialists' request to dump nuclear waste in our backyards. It is not our responsibility to figure out what to do with their nuclear waste. This proposed site is too close to a city, and is located in an area that experiences storms and earthquakes. The material would also need to travel across Texas to reach the site. We say NO to this proposal.
