General Comment

Docket ID NRC=2016-0231

The Nuclear Regulatory Commission (NRC) Notice: Environmental Reviews: Waste Control Specialists, LLC; Consolidated Interim Spent Fuel Storage Facility Project

NO to an "interim" spent fuel storage facility in Texas or anywhere for that matter. Temporary parking lot style dumps are NOT a solution.

The solution begins with the cessation of making this poison in the first place.

It's criminal that this industry is allowed to profit making this waste and then be allowed to dump it's hazardous forever waste on us & future generations.

ENOUGH ALREADY!
