Kingston, TN 37763

Dear Ms. Monday:

The U.S. Nuclear Regulatory Commission (NRC), is returning without further action, the application for amendment to import license IW022/05 (enclosed).

The reason for the return is that the radioactive material proposed to be imported, as described in the application, does not meet the definition of radioactive waste as per Title 10 of the *Code of Federal Regulations* (10 CFR) Part 110.2. This was discussed with you on March 22, 2017. As such, the material can be imported under a general license, in accordance with 10 CFR 110.27.

If you have additional questions regarding this application or letter, please contact Ms. Andrea Jones at (301) 287-9072, or e-mail, [Andrea.Jones2@nrc.gov](mailto:Andrea.Jones2@nrc.gov).

Sincerely,

A handwritten signature in black ink, appearing to read "Peter J. Habighorst".
