Subject: Request for additional information regarding termination request dtd February 22, 2017.

Discussion: Mr. Chalfant was called to request additional information regarding the subject termination request letter. Mr. Chalfant was asked the assay date for the aGd-153 sealed source that was transferred to Alaron Corporation as the waste manifest total activity did not correspond with the activity documented on the sealed source leak test report provided. Mr. Chalfant stated that the original order for the sealed source was for 1000 mCi on April 27, 2010. With this information, the decayed amount was comparable to the waste manifest activity.
