To the Nuclear Regulatory Commission:

I am registering a NO to Consolidated "Interim" Storage Waste Dumps.

I am asking you to broaden public comment and awareness of this project by extending the public comment period by 90 days and holding public scoping meetings in Dallas, Chicago, Atlanta and other population centers along the transportation corridors the waste will travel.

I am opposed to licensing the proposed nuclear waste dump in West Texas, through the expansion of its existing hazardous waste site.

Moving high level radioactive waste across the country from our nuclear facilities multiplies the contamination risks to the public and increases terrorist threat opportunities.

I stand opposed for the health and safety of the American people around the site in West Texas, along the transportation routes it would travel and regarding the land and water the waste threatens to pollute.

Sincerely,  
Marcia F Hart RN
