In the Matter of
Florida Power & Light Company
(Turkey Point Units 6 and 7)
Docket Nos. 52-040 and 52-041

Dear Administrative Judges and parties:

In the course of preparing rebuttal testimony, it has come to the NRC Staff's attention that there is an arithmetic error in NRC-002, the "NRC Staff Testimony of Ann L. Miracle, Daniel O. Barnhurst, Paul D. Thorne, and Alicia Williamson-Dickerson Concerning Contention 2.1 (Impacts of Deep Well Injection of Four Constituents in Cooling-Tower Blowdown)," dated March 1, 2017, and filed in this proceeding. Specifically, in A30, the number "eight," which appears twice, should be "seventeen." The Staff is filing a revised version of this testimony today to correct the error. This correction does not result in any other change in NRC-002, including pagination. The revised testimony is labeled as NRC-002-R in accordance with the Board's direction, and the Staff has updated its exhibit list accordingly. The Staff regrets the error. In addition, the Staff Exhibit List incorrectly identifies the date of NRC-046 as "2007." The date of NRC-046 is 2010, and this has been corrected in NRC-001-R, which is being revised to add the Staff Rebuttal Testimony as an exhibit in any case.

Respectfully submitted,

/Signed (electronically) by/
