Re: Docket No. 50-275
Docket No. 50-323

Dear Mr. Stolz:

Attached for your review are 30 controlled copies (numbered 011-040) of our upgraded emergency plan for Diablo Canyon. This plan is being submitted in accordance with Mr. Darrell G. Eisenhut's request in his letter of October 10, 1979, and in accordance with the verbal request of Mr. Dean Kunihiro during the November 29, 1979 technical review meeting held to discuss the upgrading of the emergency plan for Diablo Canyon. The upgraded emergency plan addresses the Staff's 13 areas of interest presented at the meeting.

PGandE's Corporate Emergency Response Plan is being updated and will be available by March 26, 1980.

Kindly acknowledge receipt of this material on the enclosed copy of this letter and return it to me in the enclosed addressed envelope.

Very truly yours,

Philip A. Crane

LIST

The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that every entry should be supported by proper documentation and that the books should be kept up to date at all times.

In the second section, the author details the various methods used to collect and analyze data. This includes the use of standardized forms, regular audits, and the application of statistical techniques to identify trends and anomalies.

The third section focuses on the internal controls and procedures that are in place to ensure the integrity of the financial information. It describes the roles and responsibilities of different departments and the checks and balances that are implemented to prevent errors and fraud.

Finally, the document concludes with a summary of the key findings and recommendations. It stresses the need for continuous improvement and the importance of staying current with the latest accounting practices and technologies.
