Docket Nos. 50-275

50-323

Pacific Gas and Electric Company
77 Beale Street
San Francisco, California 94106

Attention: Mr. Philip A. Crane, Jr.
Assistant General Counsel

Gentlemen:

Subject: NRC Inspection of Diablo Canyon Units 1 and 2

This refers to an inspection conducted by Mr. D. M. Sternberg of this office on March 25-27, 1980, at Diablo Canyon Nuclear Power Station, and your corporate offices in San Francisco, California of activities authorized by NRC Construction Permits No. CPPR-39 and CPPR-69 and to discussions of our findings held by Mr. Sternberg with Mr. Schuyler and others of your staff at the conclusion of the inspection.

Areas examined during this inspection are described in the enclosed inspection report. Within these areas, the inspection consisted of selective examinations of procedures, interviews with personnel, and observations by the inspector.

This inspection identified numerous areas in which your organization, staffing and management controls need to be finalized and/or upgraded to meet current NRC requirements and guidelines. These areas, which are discussed in the attached report of our inspection, will be reexamined during future inspections to determine the operational readiness of the Diablo Canyon Nuclear Plant.

In accordance with Section 2.790 of the NRC's "Rules of Practice," Part 2, Title 10, Code of Federal Regulations, a copy of this letter and the enclosed inspection report will be placed in the NRC's Public Document Room. If this report contains any information that you believe to be proprietary, it is necessary that you submit a written application to this office, within 20 days of the date of this letter, requesting

APR 22 1980

that such information be withheld from public disclosure. The application must include a full statement of the reasons why it is claimed that the information is proprietary. The application should be prepared so that any proprietary information identified is contained in an enclosure to the application, since the application without the enclosure will also be placed in the Public Document Room. If we do not hear from you in this regard within the specified period, the report will be placed in the Public Document Room.

Should you have any questions concerning this inspection, we will be glad to discuss them with you.

Sincerely,

J. L. Crews, Chief
Reactor Operations and Nuclear
Support Branch
