Nuclear Regulatory Commission
Chairman Ahearne
1717 N. Street N.W.
Washington, D. C. 20555

Dear Chairman Ahearne,

Last Wednesday night at 8:38 pm an earthquake registering 4.9 on the Richter Scale occurred along the Hosgri earthquake fault. Since earthquake activity in California is a very real danger, I strongly oppose the licensing of a nuclear power plant located only 3 miles off shore from an actively earthquake fault. Many specialists up till now believed the Hosgri fault to be inactive. Obviously this is not so!

Therefore, I, as a resident living 10 miles downwind of Diablo Canyon Nuclear Power Plant, implore you to deny an operating license to this ^{power} plant.

Mother Nature cannot be controlled so we must control man-made mistakes.

Sincerely,
Julie Klopping
