6/4/80

Nuclear Regulatory Comm.
Chairman Ahearne
1717 N. Street, NW
Washington, D.C. 20555

Dear Sirs:

I wish to express my concern regarding the earthquake we had here on the Central Coast on May 28, 1980 at 8:30 P.M. It measured 4.9, and was on the Hosgri Fault near the Diablo Nuclear power plant. Who is to say that there won't be more earthquakes there, and perhaps of greater intensity?

For this reason, I would strongly urge that the NRC deny an operating license for Diablo Nuclear Power Plant.

Sincerely,
Ingrid Johnson
