Robert L. Tedesco,
Assistant Director for Licensing
Office of Nuclear Reactor Regulations
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

Dear Mr. Tedesco,

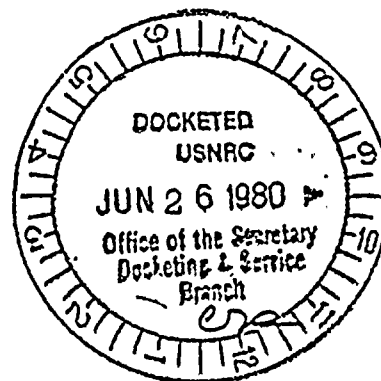

I am writing to thank you for your cooperation in assuring that the Joint Intervenors' representatives would be permitted to participate in the systems interaction audit, conducted at the Diablo Canyon Nuclear Power Plant on June 17-19. Meaningful public participation in licensing proceedings requires that intervenor representatives be included in meetings of this nature, despite an applicant's efforts to bar their attendance. By insisting that our representatives be included in these meetings, the NRC Staff demonstrated its willingness to give meaning to the promise of public participation.

Very truly yours,

David Fleischaker
