Re: Docket No. 50-275
Docket No. 50-323
Diablo Canyon Units 1 & 2

Dear Mr. Stolz:

Enclosed for your information is Revision 3 to our report dated July 9, 1980 and entitled "Description of the Systems Interaction Program for Seismically-Induced Events."

Five copies of this report are being sent by courier to Mr. Bart Buckley.

Kindly acknowledge receipt of this material on the enclosed copy of this letter and return it to me in the enclosed addressed envelope.

Very truly yours,

Philip A. Crane

The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that every entry should be supported by a valid receipt or invoice. This ensures transparency and allows for easy verification of the data.

In the second section, the author details the various methods used to collect and analyze the data. This includes both manual and automated processes. The goal is to ensure that the information is both reliable and up-to-date.

The third part of the document focuses on the results of the analysis. It shows a clear upward trend in the data over the period covered. This indicates that the current strategy is effective and should be continued.

Finally, the document concludes with a series of recommendations for future actions. These include expanding the data collection to include new markets and improving the reporting process to make it more efficient.

The data shows a significant increase in sales volume, particularly in the Q3 and Q4 periods. This is a positive indicator for the overall business performance.
