 FEDERAL BUREAU OF INVESTIGATION
 U.S. DEPARTMENT OF JUSTICE

.....We the undersigned, as citizens of the State of California and ratepayers of the Pacific Gas and Electric Company, believe that the Nuclear Regulatory Commission and P.G. & E. should not allow the Diablo Canyon Nuclear Power Plant, in San Luis Obispo County, to go into operation. Nuclear Power is one of the most dangerous technologies known... it poses a grave risk to our health and safety, is a major contributing factor in the spread of nuclear weapons, it is a threat to our civil liberties, and an economically unviable way of generating electricity. Diablo Canyon is in violation of the spirit of the California Nuclear Safeguards Laws regarding the safe disposal of nuclear waste:
