Mr. Salzman:

Mr. Brown called me at 1:00 pm today, August 21, 1980. He asked me to inform the Board in the Diablo Canyon security plan proceeding that he did get a copy of the security plan yesterday afternoon. However, he had requested five copies and was given only one copy. He has been denied any additional copies.

He also asked me to advise you that they are not being permitted to bring in copies of NRC Guides and regulations or notes of their own which have been developed outside because they have been told that they will not be allowed to take them back out.
