

DOCKET NUMBER  
PROD. & UTIL. FAC.

50-275/323

August 27 1980

Nuclear Regulatory Commission  
1717 H. St., A.W.  
Washington, D.C. 20555

Dear Sirs

As residents of San Luis Obispo  
Calif., we strongly urge you to deny  
the licensing of Diablo Nuclear  
Power Plant. We urge you to never  
license Diablo or any more nuclear  
power plants.

We are a young married couple and  
know that dangers to the fetus and  
baby, just from the normal emissions &  
dangers from an accident would only  
increase the horrible risk for a  
healthy life.

This is one of the few attractive,  
reasonably unpolluted areas in this  
state. Please keep nuclear power  
out of here (and elsewhere too).

Sincerely,  
Jan Schumacher  
Jan Schumacher
