Re: Docket No. 50-275
Docket No. 50-323

Dear Mr. Miraglia:

The provisions of § III. A.2 of NUREG-0737 require that PGandE submit the radiological plans of state and local entities within the plume exposure pathway EPZ as well as the state plans for the ingestion pathway EPZ. We have previously furnished to you copies of state and local plans for the Diablo Canyon plant which, although presently under revision, do not meet current regulatory requirements. However, those plans are still in full force and effect.

PGandE also has submitted Rev. 2 of the Diablo Canyon Power Plant Emergency Plan as supplemented by additional information provided in our January 13, 1981 response to Robert L. Tedesco.

Very truly yours,

Philip A. Crane
