

DOCKET NUMBER  
PROD. & UTIL. FAC. 50-275/323 02

To:  
 Chairman  
 U.S. Nuclear Regulatory Commission  
 1717 H Street, N.W.  
 Washington, D.C. 20555

Dear Sir,

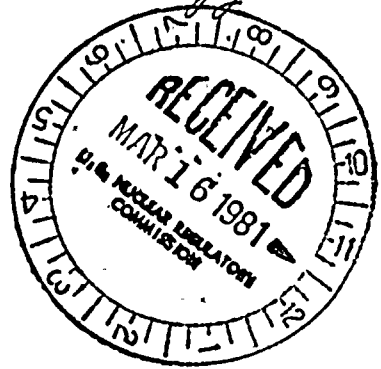

Diablo Canyon Nuclear Power Plant has met all safety and seismic requirements, including those instituted since Three Mile Island. The plant is needed to provide electrical energy in the crucial years ahead. We urge the NRC to grant an operating license at the earliest opportunity.

Sincerely,

Please act on this issue.  
 It is undemocratic to stall and stall on licensing because of a handful of activists who are anti nuclear when the large majority have voted in nuclear. I resent high prices for energy when it doesn't have to be.
