

DOCKET NUMBER 50-275,323
PROD. & UTIL. FAC.

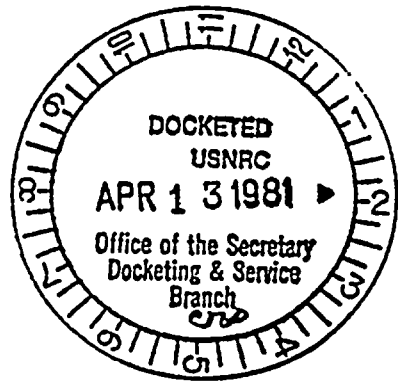

March 21, 1981

Mr. John F. Ahern,
Chairman -
U. S. Nuclear Regulatory Commission
1717 "H" Street, N.W.
Washington, D.C. 20555

Dear Sir:

I would like to urge you to speed up the licensing of the Diablo Canyon and San Onofre Nuclear Plants. I feel we paying needless dollars for energy because of all the "anti-nuke" hysteria.

Very truly yours,
Mrs. Virginia Qualsey

Mr. John F. Ahearne,
Chairman of the U.S. Regulatory Commission
1717 "H" Street
Washington, D.C. 20555

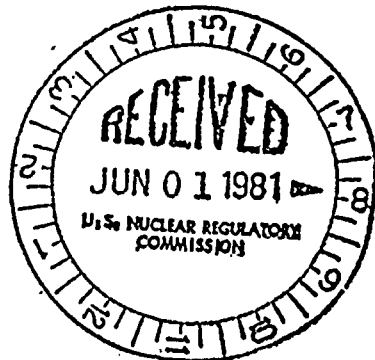

Dear Sir;

I urge you to speed up the licensing of
the Diablo and San Onofre nuclear plants.

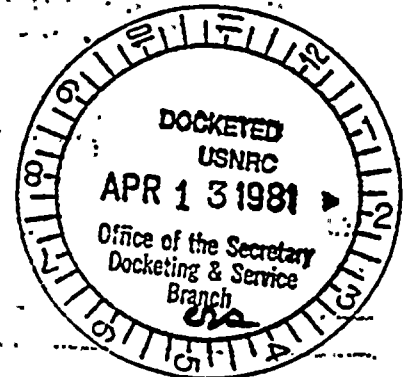

The operation of these two plants
would save Californians millions of dollars
in energy costs. The Diablo Canyon plant
would save 20 million barrels of oil per
year.

Sincerely
Richard G. Udell

Dear Sir,

We Californians surely need
Diablo Canyon and San Onofre
licensed. We exhort you
to make this possible,

Respectfully,

Helen Lester

Dear Mr Ahearne,

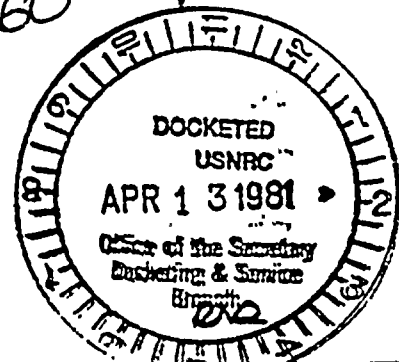

I urge your Commission
to speed up licensing of our
2 nuclear plants in California,
San Onofre and Diablo Canyon.

It seems our nation is
falling way behind in this field
because of senseless "anti-nuke"
hysteria.

Washington, D.C. 20555

Dear Mr. Ahearne:

I would appreciate your licensing both the Diablo and San Onofre Nuclear Plants. The saving in money as well as in oil is huge. IT appears that the "anti-nuke" hysterics of Gov. Brown and Jane Fonda and her husband make matters difficult to deal with. However, reputable nuclear scientists have proven just how unfounded their protests are. 80 million a month ~~sp~~ saving would come about if the above plants were allowed to operate. Your speedy action on this item is urgently requested.

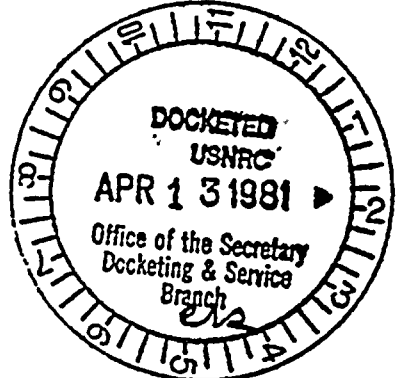

Very Truly yours,
Gayle Anita Roth DS03

Dear Sir:

cl. am writing concerning
the 2,000 megawatt Diablo
Canyon Nuclear Station at
San Luis obispo which could
be saving the California
public millions of dollars if
the N.R.C. would just license it.
Come on what's the excuse? For 5
years it has been ready.
San Onofre is not operating
to its full capacity (1105 megawatts)
causing us to rely more on our
foreign oil producers. I urge
you to help speed up the licensing
of the plant, if possible.

Mr. John F. Ahearne
Chairman, Nuclear Regulatory Commission
1717 H. Street
Washington, D.C. 20555

Mr. Ahearne,

As a resident of northern San Diego County, I am frequently made aware of the American energy crisis by the amount I pay on my monthly electricity bill. Through reading, I have discovered that the San Onofre power plant near San. Clemente, California, could not only provide cheaper power for my area, but would also aid greatly in reducing our need for Mid-Eastern oils.

The question I have is: why has it not been licensed so it can go to work? Either we should begin using what we have built, or we should deem all nuclear power plants,

DS03
5/10

20

engines, and devices unsafe, and destroy them, or give them the OK to perform for all of us.

But please make a decision soon, and let's get on with progress.

Respectfully yours,

John A. Wacker-Jewelry
