Re: Docket No. 50-275  
Docket No. 50-323  
Diablo Canyon Units 1 and 2

Dear Mr. Eisenhut:

Subject: Qualification of Inspection,  
Examination and Testing and Audit Personnel

Your letter dated May 4, 1981 requested that we furnish commitments to meet regulatory positions C.5, 6, 7, 8 and 10 of Regulatory Guide 1.58, Revision 1, and Regulatory Guide 1.146, and our planned date for meeting these commitments.

We will comply with Positions C.5, 6, 7, 8 and 10 of Regulatory Guide 1.58, Revision 1 and ANSI N 45.2.6 - 1978 with the following exceptions: Our plant quality control inspectors and personnel performing leak-rate testing, including that required by 10 CFR 50, Appendix J, will not have the three levels of qualification. As specified in the NRC interpretation of Regulatory Guide 1.58 issued April 7, 1977, personnel performing inspection, examination, and testing functions associated with normal operations of the plant such as surveillance testing, maintenance, and certain technical reviews normally assigned to the plant staff will be qualified to ANSI N 18.1 - 1971. These requirements will be fully implemented by the date that Unit 1 is issued a full power operating license.

A PDR

Mr. Darrell G. Eisenhut

- 2.-

July 14, 1981

We will fully comply with Regulatory Guide 1.146 dated August, 1980. The requirements of this guide will be in place by the date that Unit 1 receives a full power operating license.

We responded previously to these questions on January 22, 1981 and March 18, 1981. The March 18, 1981 response was updated per discussions with the NRC Staff.

Very truly yours,

*Philip A. Crane, J*
