Dear Mr. Hendrie;

I am very much against the licensing and operation of the Diablo Canyon Nuclear Facility. We don't need a Three Mile Island or worse here, PLEASE!

Sincerely,  
Helen M. Solomon

Dear Sir,

Being a 4th year medical student at Stanford, I am aware of the affects of radiation exposure with regards to health. Because of this I am opposed to the reopening of Diablo Canyon Nuclear Reactor in California, especially since it is located in close proximity to an earthquake fault.

Please take our long term health into serious consideration.

Thank you for your time,

Roy Martinez
