PROGRESS REPORT #13

This report covers our activities through May 12, 1982 with regard to our Independent Quality Assurance Audits and Reviews of the Diablo Canyon Unit 1 Plant.

Effort continued to identify and develop the design chain for Phase II prior to June 1978 safety-related design activities. Subcontractors will be selected from this design chain for the RFR QA Audit and Review Program for Phase II. Effort on completion of the design chain was deferred until receipt of the April 19, 1982 PG&E report listing the contractors related to safety-related activities.

RFR's Quality Assurance Program and the appropriate internal procedures are being revised to be in compliance with TES and PG&E programmatic requirements.

As required by DCNPP-IDVP-PP-05 and RFR-002, individuals assigned by this organization to the IDVP have completed an acceptable Statement Regarding Potential or Apparent Conflicts of Interest.
