NOTES:		1 1		

The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that every entry should be supported by a valid receipt or invoice. This ensures transparency and allows for easy verification of the data.

Furthermore, it is noted that the records should be kept in a secure and accessible format. Regular backups are recommended to prevent data loss in the event of a system failure or disaster.

In addition, the document highlights the need for consistent data entry. Standardized formats and codes should be used throughout the system to avoid confusion and errors.

The second section of the document provides a detailed overview of the system's architecture. It describes the various components that make up the system, including the database, the user interface, and the reporting tools.

The database is designed to store all transaction data in a structured and organized manner. It includes fields for date, amount, and category, which facilitate efficient data retrieval and analysis.

The user interface is designed to be intuitive and user-friendly, allowing users to easily navigate through the system and perform their required tasks. It includes features such as search filters, sorting options, and data visualization tools.

Finally, the reporting tools provide users with the ability to generate custom reports and dashboards. These reports can be used to track performance, identify trends, and make informed business decisions.

The document concludes by reiterating the importance of data integrity and security. It encourages users to follow best practices for data management and to report any issues or concerns promptly.

Overall, the document serves as a comprehensive guide for users, providing them with the information they need to get the most out of the system.

Diablo Canyon Unit 1  
License No. DPR-76

Subject: IDVP July Semimonthly Report  
Reference: RFR-082-028

Gentlemen:

This is to formally retract the above-referenced report mailed on July 26, 1982. This report is not necessary under the IDVP Phase II Program.

Very truly yours,

  
Roger F. Reedy, P.E.
