MEMORANDUM FOR: James M. Taylor, Deputy Director
Office of Inspection and Enforcement

FROM: Richard H. Vollmer, Director
Division of Engineering, NRR

SUBJECT: EFFECTIVENESS OF QA PORTION OF DIABLO CANYON IDVP

During last week's review of issues raised by Mr. Yin on the Diablo Canyon IDVP, he questioned how the QA work performed under the IDVP could have missed the programmatic issues he found at the site. I met briefly with the DC project group and Mr. Reedy last Thursday to discuss this question. He stated that, although his review took place in the October 82 - January 83 time frame which was before the "IC" program (where many of Mr. Yin's concerns arose) was initiated, that he had many of the same findings.

Please confirm that, for the extent of the Reedy audit, the findings of this audit were not in conflict with Yin's findings. I am enclosing ITR-41 and appropriate portions of the IDVP final report to assist in this review.

We need the results of your review by July 6.

Division of Engineering, NRR
