NOTES:			1 1				

The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that every entry should be supported by a valid receipt or invoice. This ensures transparency and allows for easy auditing of the accounts.

In the second section, the author details the various methods used to collect and analyze data. This includes both primary and secondary research techniques. The primary research involved direct observation and interviews with key stakeholders, while secondary research focused on reviewing existing literature and industry reports.

The third section describes the results of the data analysis. It shows that there is a significant correlation between the variables being studied. The findings suggest that the current practices are effective, but there are areas where improvements can be made to optimize performance further.

Finally, the document concludes with a series of recommendations based on the research findings. These recommendations are designed to address the identified weaknesses and leverage the strengths of the current system. The author believes that implementing these changes will lead to a more efficient and profitable operation.

Appendix A

This section contains supplementary information that supports the main text. It includes detailed data tables, charts, and additional notes that provide a more comprehensive view of the research. The data shows a clear trend over time, indicating that the proposed changes are likely to have a positive impact on the organization's overall performance.

The charts illustrate the key findings in a visual format, making it easier to understand the relationships between different variables. The notes provide further context and explanation for the data presented in the tables and charts.

Overall, the appendix serves as a valuable resource for anyone interested in the research. It provides a wealth of information that can be used to inform decision-making and guide future research in this area.

Docket No. 50-323  
Diablo Canyon Units 1 and 2  
FSAR Update

Dear Mr. Denton:

Pursuant to 10 CFR 50.71(e), PGandE is providing 13 copies of the Diablo Canyon FSAR Update each of which contains eleven volumes. Also provided are one signed original and twelve copies of the letter transmitting these documents.

This FSAR Update reflects the status of Diablo Canyon Unit No. 1 through March 22, 1984, the cutoff date for this Update. This Update includes information required by 10 CFR 50.71(e,) including changes made to Unit No. 1 since the previously submitted FSAR.

Changes made under the provisions of 10 CFR 50.59 through the March 22, 1984 cutoff date are also incorporated in this Update. These changes will be identified in PGandE's normal reporting method in the annual 10 CFR 50.59 report.

Kindly acknowledge receipt of this material on the enclosed copy of this letter and return it in the enclosed addressed envelope.
