Dear Secretary of the Nuclear Regulatory
Commission of the United States:

We cannot attend the public hearing you
have scheduled for June 15 because we have
to work. But we wish to register our
extreme opposition to the killing of life
in this county with the storage of nuclear
waste at Diablo Canyon on an earthquake
fault. We have rights to this land as
30 year residents to maintain its health
& safety. Sincerely, Mr. & Mrs. Kerette Guelin
