Emergency Preparedness Field Exercise Objectives,  
Guidelines and Participants

Dear Mr. Martin:

Enclosed are the objectives, guidelines and participants developed for the 1989 Diablo Canyon Power Plant Emergency Preparedness Field Exercise. If you have any questions or comments regarding the enclosed material, please contact Edward V. Waage at (415) 972-4455.

Kindly acknowledge receipt of this material on the enclosed copy of this letter and return it in the enclosed addressed envelope.

Sincerely,

A handwritten signature in cursive script, appearing to read 'W. Fujimoto'.

PACIFIC GAS AND ELECTRIC COMPANY  
DIABLO CANYON POWER PLANT

1989 FIELD EXERCISE

2.0 OBJECTIVES

## 2.0 OBJECTIVES

The following general and specific objectives have been developed for the 1989 Emergency Preparedness Field Exercise which will be held on September 13, 1989.

### I. For Pacific Gas and Electric Company (PG&E):

#### A. Control Room

1. Demonstrate timely and effective use of notification and alerting procedures and methods.
2. Demonstrate the adequacy, operability, and effective use of emergency communications equipment, and the adequacy of communications procedures and methods.
3. Demonstrate the ability of Control Room personnel to perform effective record-keeping.
4. Demonstrate the ability of the Interim Site Emergency Coordinator and/or Emergency Operations Coordinator to maintain command control over all emergency response activities conducted from the Control Room throughout the exercise.
5. Demonstrate the precise and clear transfer of responsibilities from the Control Room to the Technical Support Center (TSC).
6. Demonstrate the ability of Control Room personnel to classify an emergency condition in a timely manner.
7. Demonstrate the ability of Control Room personnel to make a timely determination of the cause of an incident, and perform mitigating actions to place the affected unit(s) in a safe, stable condition.
8. Demonstrate the ability to formulate and implement onsite protective action measures in a timely manner.
9. Demonstrate corrective actions for findings, if any, identified during previous exercises.
10. Demonstrate the ability to conduct a post-exercise critique.

#### B. Technical Support Center (TSC)

1. Demonstrate the functional and operational adequacy of the TSC.
2. Demonstrate the adequacy, operability, and effective use of emergency communications equipment, and the adequacy of communications procedures and methods.

## 2.0 OBJECTIVES

3. Demonstrate the ability of the Site Emergency Coordinator to maintain command control over all emergency response activities conducted from the TSC throughout the exercise.
4. Demonstrate the primary functional responsibilities and/or problem-solving capabilities of the TSC staff.
5. Demonstrate the precise and clear transfer of responsibilities from the Control Room to the TSC.
6. Demonstrate the precise and clear transfer of responsibilities from the TSC to the Emergency Operations Facility (EOF).
7. Demonstrate the ability of the TSC staff to coordinate the deployment of personnel to perform in-plant emergency response activities with the appropriate personnel stationed in the Operational Support Center (OSC).
8. Demonstrate the proficiency of the TSC personnel to classify an emergency condition.
9. Demonstrate the ability of the TSC staff to support the Control Room staff's efforts to identify the cause of an incident, mitigate the consequences of that incident, and place the affected unit(s) in a safe, stable condition.
10. Demonstrate the ability to perform timely assessments and projections of onsite and offsite radiological conditions to support the formulation of protective action recommendations.
11. Demonstrate the ability to formulate and communicate protective action recommendations to local authorities in a timely manner as appropriate.
12. Demonstrate the ability to formulate and implement onsite protective action measures in a timely manner.
13. Demonstrate the ability to control the exposure of onsite emergency workers.
14. Demonstrate corrective actions for findings, if any, identified during previous exercises.
15. Demonstrate the ability to conduct a post-exercise critique.

*Has 6. Sub. TSC ?*

### C. Operational Support Center (OSC)

## 2.0 OBJECTIVES

1. Demonstrate the functional and operational adequacy of the OSC.
2. Demonstrate the adequacy, operability, and effective use of emergency communications equipment, and the adequacy of communications procedures and methods.
3. Demonstrate the ability of the OSC staff to initiate and coordinate activities in an efficient and timely manner.
4. Demonstrate the ability of the OSC staff to direct and coordinate the deployment of Onsite Maintenance Teams in a timely manner, and to coordinate the deployment of those teams with the appropriate personnel stationed in the TSC.
5. Demonstrate the ability of Chemistry and Radiation Protection personnel to efficiently and effectively utilize their procedures to perform dose rate surveys, collection and analysis of radiological samples, and other prescribed onsite and in-plant radiological monitoring activities.
6. Demonstrate the ability to analyze samples drawn from the in-plant normal or post-accident sampling systems, and assess the resultant data.
7. Demonstrate corrective actions for findings, if any, identified during previous exercises.
8. Demonstrate the ability to conduct a post-exercise critique.

### D. Emergency Operations Facility (EOF)

1. Demonstrate the ability of the interim EOF staff to activate the EOF and maintain coordination with the San Luis Obispo County Emergency Operations Center (EOC) and other PG&E emergency response facilities.
2. Demonstrate the functional and operational adequacy of the EOF.
3. Demonstrate the adequacy, operability and effective use of emergency communications equipment, and the adequacy of communications procedures and methods.
4. Demonstrate the ability of the Recovery Manager to maintain command control over all emergency response activities conducted from the EOF throughout the exercise.
5. Demonstrate the precise and clear transfer of responsibilities from the TSC staff to the EOF staff.
6. Demonstrate the ability of the EOF personnel to classify an emergency condition in a timely manner as appropriate.
7. Demonstrate the ability of the EOF staff to support the TSC

*Trace back to 2.0.1*

2.0 OBJECTIVES

staff's efforts to identify the cause of an incident, mitigate the consequences of that incident, and place the affected unit(s) in a safe, stable condition.

## 2.0 OBJECTIVES

8. Demonstrate the ability to utilize vendor and other outside resources to assist accident analysis and mitigation efforts.
9. Demonstrate the ability to formulate protective action recommendations, and communicate those recommendations to State and local authorities in a timely manner.
10. Demonstrate corrective actions for findings, if any, identified during previous exercises.
11. Demonstrate the ability to conduct a post-exercise critique.

### E. Corporate Incident Response Center (CIRC)

1. Demonstrate the ability to alert and mobilize the Corporate Emergency Response Organization (CERO) in a timely manner.
2. Demonstrate the functional and operational adequacy of the CIRC.
3. Demonstrate the adequacy, operability and effective use of emergency communications equipment, and the adequacy of communications procedures and methods.
4. Demonstrate the ability of the Corporate Emergency Coordinator, Corporate Technical and Logistical Coordinator, Corporate Liaison Coordinator, Corporate Engineering Coordinator and Corporate Construction Coordinator to maintain command control over all emergency response activities conducted from the CIRC throughout the exercise.
5. Demonstrate the ability of the CERO to support the EOF and TSC staffs in an efficient and effective manner.
6. Demonstrate the primary functional responsibilities and/or problem-solving capabilities of the CERO.
7. Demonstrate corrective actions for findings, if any, identified during previous exercises.
8. Demonstrate the ability to conduct a post-exercise critique.

## II. For PG&E, the County of San Luis Obispo, and the State of California:

### A. Unified Dose Assessment Center

1. Demonstrate the adequacy, operability, and effective use of emergency communications equipment, and the adequacy of communications procedure and methods.

## 2.0 OBJECTIVES

2. Demonstrate the ability to perform timely assessments of offsite radiological conditions to support the formulation of protective action recommendations.
  3. Demonstrate the ability to formulate timely protective action recommendations for the EOC.
  4. Demonstrate the ability to coordinate offsite dose assessment activities with those conducted by the State.
  5. Demonstrate the ability to direct and coordinate the deployment of Radiological Monitoring Field Teams in a timely manner.
  6. Demonstrate the ability to control the exposure of personnel assigned to the Radiological Monitoring Field Teams and the Mobile Environmental Monitoring Laboratory.
  7. Demonstrate corrective actions for findings, if any, identified during previous exercises.
  8. Demonstrate the ability to conduct a post-exercise critique.
- B. Radiological Monitoring Field Teams and Mobile Environmental Monitoring Laboratory
1. Demonstrate the ability to form and coordinate the deployment of the Radiological Monitoring Field Teams.
  2. Demonstrate the adequacy, operability and effective use of emergency communications equipment, and the adequacy of communications procedures and methods.
  3. Demonstrate the ability of Radiological Monitoring Field Teams personnel to efficiently and effectively utilize their procedures to perform dose rate surveys, collection and analysis of radiological samples, and other prescribed radiological monitoring activities.
  4. Demonstrate the ability to conduct a post-exercise critique.
- C. Media Center
1. Demonstrate the adequacy and operability of the Media Center.
  2. Demonstrate the adequacy, operability and effective use of emergency communications equipment, and the adequacy of communications procedures and methods.

## 2.0 OBJECTIVES

3. Demonstrate the capability of PG&E to coordinate the preparation, review and release of information through San Luis Obispo County; and the ability of all parties to provide accurate and timely information releases to the general public and the news media.
4. Demonstrate the ability to establish and operate rumor control.
5. Demonstrate corrective actions for findings, if any, identified during previous exercises.
6. Demonstrate the ability to conduct a post-exercise critique.

### III. For the County of San Luis Obispo:

#### A. Emergency Operations Center (EOC)

1. Demonstrate the ability to promptly notify and mobilize the San Luis Obispo County Emergency Response Organization.
2. Demonstrate the functional and operational adequacy of the EOC.
3. Demonstrate the adequacy, operability and effective use of emergency communications equipment and the adequacy of communications procedures and methods.
4. Demonstrate the ability to communicate with members of the San Luis Obispo County Emergency Response Organization, the State of California, other local organizations and PG&E.
5. Demonstrate that decisions can be made with regard to protective measures for the Basic Emergency Planning Zone.
6. Demonstrate the ability to alert the public within the Basic Emergency Planning Zone, and to disseminate an initial instructional message within 15 minutes after the decision is made to do so.
7. Demonstrate the ability to formulate and distribute appropriate instructions to the public in a timely fashion.
8. Demonstrate the ability to organize and manage the resources necessary to support an orderly evacuation of the affected protective action zones within the Basic Emergency Planning Zone.
9. Demonstrate the ability to identify the need for, and request and obtain State assistance.

## 2.0 OBJECTIVES

10. Demonstrate the adequacy and operability of the Cities Liaison Unit's communications equipment and the ability of the unit to transmit briefings to the cities.
11. Demonstrate the ability to continuously monitor and control emergency worker exposures.
12. Demonstrate the ability to conduct a post-exercise critique.

### B. Congregate Care Operations At Camp Roberts

1. Demonstrate the ability to alert and mobilize the American Red Cross to open the congregate care center in a timely manner.
2. Demonstrate the ability to maintain communications between the EOC and Red Cross operations at the congregate care center.
3. Demonstrate the ability to register evacuees.
4. Demonstrate adequacy, operability, and effective use of Camp Roberts as a congregate care facility for handling expected numbers of evacuees.
5. Demonstrate coordination between the Red Cross and other agencies in the operation of the congregate care facility.
6. Demonstrate the ability to monitor evacuees using appropriate equipment and procedures.
7. Demonstrate adequate staffing for monitoring.
8. Demonstrate the ability to decontaminate evacuees in need of decontamination.
9. Demonstrate the ability to conduct a post-exercise critique.

## IV. For the County of Santa Barbara:

### A. County Emergency Operations Center/City of Santa Maria Emergency Operations Center

1. Demonstrate capability of ring-down line between San Luis Obispo and Santa Barbara County Sheriff's Watch Commanders.
2. Demonstrate capability of primary and backup communications between Santa Barbara County EOC, City of Santa Maria EOC and the County of San Luis Obispo EOC.
3. Demonstrate the ability to promptly mobilize the County of Santa Barbara and City of Santa Maria EOC's.

## 2.0 OBJECTIVES

4. Demonstrate the capability to implement and coordinate an Amateur Radio Emergency Services (ARES) operation between Santa Maria EOC, the decontamination point, and Allan Hancock College.
  5. Demonstrate the functional and operational adequacy of the County of Santa Barbara and City of Santa Maria EOC's.
  6. Demonstrate the ability to organize and manage the resources necessary to support congregate care operations.
  7. Demonstrate the ability to conduct a post-exercise critique.
- B. Congregate Care Operations At Allan Hancock College
1. Demonstrate the ability to alert and mobilize the American Red Cross to open the congregate care center in a timely manner.
  2. Demonstrate the ability to maintain communications between the EOC and Red Cross operations at the congregate care center.
  3. Demonstrate the ability to register evacuees.
  4. Demonstrate adequacy, operability, and effective use of Allan Hancock College as a congregate care facility for handling expected numbers of evacuees.
  5. Demonstrate coordination between the Red Cross and other agencies in the operation of the congregate care facility.
  6. Demonstrate the ability to conduct a post-exercise critique.
- C. Decontamination/Monitoring
1. Demonstrate the ability to monitor evacuees using appropriate equipment and procedures.
  2. Demonstrate adequate staffing for monitoring.
  3. Demonstrate the ability to decontaminate evacuees in need of decontamination.
  4. Demonstrate the ability to conduct a post-exercise critique.
- D. Public Information
1. Demonstrate the ability to mobilize a Public Information staff consistent with public information needs.
  2. Demonstrate the ability to coordinate public information between San Luis Obispo and Santa Barbara Counties.

## 2.0 OBJECTIVES

3. Demonstrate the ability to activate a North County media center and coordinate dissemination of public information to Santa Barbara EOC.
4. Demonstrate the capability of computerized public information message flow.
5. Demonstrate the ability to conduct a post-exercise critique.

PACIFIC GAS AND ELECTRIC COMPANY  
DIABLO CANYON POWER PLANT

1989 FIELD EXERCISE

3.0 GUIDELINES

DCPP.EVW

Rev. 2

### 3.0 GUIDELINES

As a result of discussions between Pacific Gas and Electric Company (PG&E), the Federal Emergency Management Agency - Region IX (FEMA), the California Office of Emergency Services (OES), and the Counties of San Luis Obispo and Santa Barbara, the following guidelines have been developed for the 1989 Emergency Preparedness Field Exercise.

1. The Field Exercise will be conducted on September 13, 1989. Since the exercise "players" will not possess prior knowledge of the exercise start time, all personnel should follow their normal routines for the day.
2. All Diablo Canyon Power Plant (DCPP) Control Room activities associated with the exercise will take place in the Training Building Simulator Room with the exception of those activities of the Auxiliary Operators, who will report to the Operations Ready Room to simulate dispatch into the plant from the Units 1 and 2 Control Room.
3. The Field Exercise will commence with a postulated plant condition necessitating a declaration of the appropriate emergency classification.
4. The postulated accident conditions may result in a simulated radiological release which necessitates the consideration of protective actions for the general public. Meteorological conditions may be varied throughout the exercise.
5. This exercise may include a simulated evacuation of the affected offsite population to a reception and care facility. Traffic control will be simulated from the San Luis Obispo County EOC.
6. Exercise "players" will perform, as appropriate, radiological monitoring and dose assessment activities.
7. Three (3) offsite Radiological Monitoring Field Teams (plus the PG&E Mobile Environmental Monitoring Laboratory) and one (1) onsite Radiological Monitoring Field Team will be dispatched for the purpose of testing response time, communications, monitoring capability and sample collection and the delivery of those samples to the Mobile Environmental Monitoring Laboratory for analysis.

Each radiological monitoring field team will be accompanied by a controller/evaluator team throughout the exercise. Each field team will rendezvous with its controller/evaluator team at the location at which it obtains its emergency kits. The rendezvous locations are as follows:

- a. Diablo Canyon Power Plant Training Building (onsite team), and
- b. Los Padres Division Service Center (offsite teams).

### 3.0 GUIDELINES

8. The PG&E emergency response facilities and the San Luis Obispo County EOC will be fully activated. The State of California State Operations Center will not be activated. The Santa Barbara County and Santa Maria EOC's will be activated to support various congregate care and public information activities.
9. Camp Roberts of the California National Guard will be activated as a congregate care facility. Volunteers will play the role of evacuees to test the operation of the facility.
10. Allan Hancock College will be activated as a congregate care facility for training purposes only. No formal evaluation is requested.
11. The media center at Cuesta College will be manned and perform its prescribed functions. Members of the press in the San Luis Obispo area will be identified and invited to participate in the exercise. However, no exercise press releases will be made to the public.
12. As appropriate, Emergency Broadcast System (EBS) announcements should be prepared and passed to the appropriate stations, but not released to the general public.
13. As appropriate, procedures for the activation of the Early Warning System (EWS) will be demonstrated up to, but not including, siren activation.
14. The postulated accident conditions may warrant the assembly and evacuation of non-essential DCPD personnel. If required by the exercise scenario, the sounding of the DCPD onsite emergency alarm, and personnel assembly and evacuation will be simulated.
15. Participation by PG&E onsite personnel directly involved in responding to an emergency shall be carried out to the fullest extent possible, including the deployment of radiological monitoring teams, emergency repair and damage control teams, and other emergency workers.
16. The California Department of Forestry (CDF) may be involved in providing simulated firefighting assistance at the Diablo Canyon Power Plant. If required by the exercise scenario, CDF will be contacted for the purpose of checking communications only, but will not be required to mobilize manpower or equipment in response to a simulated onsite fire. In addition, CDF may be asked to provide mutual-aid firefighting resources to respond to simulated fire conditions in other areas of San Luis Obispo County. If so, contact will be made with the Region I Fire Mutual Aid Coordinator (FMAC) solely for the purpose of checking communications. The FMAC will not be required to mobilize manpower or equipment.

### 3.0 GUIDELINES

17. If required by the exercise scenario, alternate means of accessing the plant shall merely be simulated and not actually implemented. However, onsite security personnel should exercise their procedures for restricting normal access to the site without actually redirecting incoming and outgoing personnel.

No other live or simulated events are to be included in the extent of "play" of the exercise.

PACIFIC GAS AND ELECTRIC COMPANY  
DIABLO CANYON POWER PLANT

1989 FIELD EXERCISE

4.0 PARTICIPANTS

#### 4.0 PARTICIPANTS

The Field Exercise will require the participation of those personnel holding primary or alternate assignments within the PG&E, San Luis Obispo County, Santa Barbara County and State of California emergency response organizations. Exercise participants will include the following emergency plan position holders and any support staff they deem appropriate for a proper response to the exercise scenario.

##### I. Pacific Gas and Electric Company

###### A. Onsite Emergency Organization

1. Site Emergency Coordinator
2. Emergency Operations Advisor
3. Emergency Operations Coordinator
4. Emergency Evaluations and Recovery Coordinator
5. Emergency Radiological Advisor
6. Security Liaison
7. Emergency Liaison Coordinator
8. Emergency Maintenance Coordinator
9. Operational Support Center Supervisor
10. Site Materials Coordinator
11. Computer Data Availability Coordinator
12. Shift Supervisor
13. Shift Foreman
14. Security Shift Supervisor

###### B. Emergency Operations Facility Organization

1. Recovery Manager
2. Public Information Recovery Manager
3. Technical Advisor to the Public Information Recovery Manager
4. Radiological Emergency Recovery Manager
5. Engineering and Logistics Recovery Manager

#### 4.0 PARTICIPANTS

6. Operations and Analytical Recovery Manager
7. Advisor to the County Emergency Organization

#### C. Media Center

1. Media Center Director
2. Technical Advisor to the Media Center Director

#### D. General Office Emergency Organization

1. Corporate Emergency Coordinator
2. Corporate Technical and Logistical Coordinator
3. Corporate Liaison Coordinator
4. Corporate Engineering Coordinator
5. Corporate Construction Coordinator
6. Corporate Regional Coordinator
7. Corporate Materials Coordinator
8. Corporate Computer Applications Coordinator
9. Corporate Quality Assurance Coordinator
10. Corporate Public Information Coordinator
11. Corporate Governmental Relations Coordinator
12. Corporate Law Department Coordinator
13. Corporate Insurance Coordinator
14. Corporate Safety, Health, and Claims Coordinator
15. Corporate Security Coordinator
16. Corporate Human Relations Coordinator
17. Corporate Telecommunications Coordinator

#### **4.0 PARTICIPANTS**

##### **II. Offsite Organizations**

###### **A. County of San Luis Obispo**

- 1. County Emergency Services Director**
- 2. County Emergency Services Coordinators**
- 3. Chairman/Members of the County Board of Supervisors**
- 4. County Public Information Officers**
- 5. County Fire Chief**
- 6. County Superintendent of Schools**
- 7. County Health Officer**
- 8. County Environmental Health Director**
- 9. County Health Officer Liaison**
- 10. County Health Support Staff**
- 11. County Air Pollution Control Staff**
- 12. County Field Monitoring Personnel**
- 13. County Agricultural Commissioner**
- 14. County Engineer**
- 15. County Social Services Director**
- 16. County General Services Director**
- 17. County Communications Supervisor**
- 18. County Counsel**
- 19. County Sheriff's Office**
- 20. American Red Cross**
- 21. Cities Liaison**
- 22. Amateur Radio Emergency Services**

#### **4.0 PARTICIPANTS**

##### **B. Cities of San Luis Obispo County**

- 1. Arroyo Grande**
- 2. Grover City**
- 3. Morro Bay**
- 4. Pismo Beach**
- 5. San Luis Obispo**

##### **C. Others located within the San Luis Obispo County Area**

- 1. California Polytechnic State University**
- 2. Emergency Broadcast System Stations**
- 3. Atascadero Unified School District**
- 4. Lucia Mar School District**
- 5. San Luis Coastal Unified School District**
- 6. Cuesta College**

##### **D. Santa Barbara County**

- \* 1. County Office of Emergency Management**
- \* 2. City of Santa Maria**
- \* 3. American Red Cross**
- \* 4. Santa Barbara County Liaison at the San Luis Obispo County EOC.**
- \* 5. Amateur Radio Emergency Services**
- \* 6. Environmental Health Services**
- \* 7. Allan Hancock College**

##### **E. State of California**

- \* 1. Office of Emergency Services**
- 2. Department of Parks and Recreation**
- \* 3. Department of Corrections (California Men's Colony)**
- \* 4. Caltrans**

#### 4.0 PARTICIPANTS

- \* 5. Department of Health Services
- 6. California Highway Patrol
- \* 7. California National Guard (Camp Roberts)

\* The participants from these agencies are exempt from FEMA evaluation.

Active participation in the Field Exercise will only be required of the above-listed organizations. If the exercise scenario requires that any other organization and/or officials be contacted, they shall be contacted for the purposes of checking communications only. All Federal responses to the postulated emergency conditions, including those of the Federal Radiological Monitoring Assistance Plan (FRMAP) and the Department of Energy, shall be simulated through FEMA or NRC personnel stationed in San Francisco or Bethesda, respectively.
