Diablo Canyon Units 1 and 2
Long Term Seismic Program - Ground Motion

Gentlemen:

We are responding to the NRC request, dated February 23, 1990, for information relating to Long Term Seismic Program ground motion issues. On August 2, 1990 (DCL-90-201), we provided responses to Questions LP 2 through LP 8 and LP 10 through LP 13. Enclosed are PG&E's responses to Questions LP 1 and LP 9. This completes our response to the questions asked following the Loma Prieta earthquake.

In addition, several verbal requests were made by the NRC Staff at the NRC/PG&E Workshop held April 30, 1990. We have numbered these requests Workshop Questions 1 through 7 and enclose our responses to Workshop Questions 1 through 6. The documentation for Workshop Question 7, regarding our regression analysis for vertical ground motions, is in progress and will be submitted as soon as possible.

Kindly acknowledge receipt of the material on the enclosed copy of this letter and return it in the enclosed addressed envelope.

Sincerely,

J. D. Shiffer
