Approved by:

Robert J. Pate

Robert J. Pate, Chief, Safeguards, Emergency Preparedness, and Non-Power Reactor Branch

8/16/93
Date Signed

Summary:

Areas Inspected: This routine inspection by a region-based inspector examined the following portions of the licensee's emergency preparedness program: Items identified during previous emergency preparedness exercises, Operational Status of the Emergency Preparedness Program, Onsite Follow-up of Events at Operating Power Reactors, and Inspector Identified Items. During this inspection, portions of Inspection Procedures 82701 and 93702 were used.

Results: In the areas inspected, the licensee's emergency preparedness program appeared adequate to accomplish its objectives and the licensee was found to be in compliance with NRC requirements.
