Docket No. 50-275, OL-DPR-80
Docket No. 50-323, OL-DPR-82
Diablo Canyon Units 1 and 2
License Amendment Request 96-05
Revision of Technical Specification 4.0.5 - "Surveillance Requirements"

Dear Commissioners and Staff:

Enclosed is an application for amendment to Facility Operating License Nos. DPR-80 and DPR-82. The enclosed License Amendment Request (LAR) proposes to change Technical Specification (TS) 4.0.5, "Surveillance Requirements," to delete reference to prior NRC approval for written relief from the Inservice Inspection and Inservice Testing Program requirements. Deletion of this requirement is consistent with the recommendations of Generic Letter 89-04, Supplement 1, "Guidance on Developing Acceptable Inservice Testing Programs"; NUREG-1482, "Guidelines for Inservice Testing Programs at Nuclear Power Plants"; and the requirements of 10 CFR 50.55a, "Codes and Standards."

PG&E requests that the NRC assign a medium priority for review and approval of this LAR. PG&E also requests that the TS changes become effective immediately upon NRC issuance of the license amendment.

Sincerely,

A handwritten signature in cursive script, appearing to read 'Lawrence F. Womack'. The signature is written in dark ink on a white background.
