SUBJECT: AMENDMENT REQUEST NO. 15 TO MATERIALS LICENSE NO. SNM-2500  
FOR THE GE-HITACHI NUCLEAR ENERGY LLC FACILITY – ACCEPTED FOR  
REVIEW (CAC NO. L25200)

Dear Mr. Murray:

By letter dated February 15, 2017 (Agencywide Documents Access and Management System (ADAMS) Accession No. ML17046A072, as supplemented March 9, 2017, ADAMS Accession No. ML17072A381), GE-Hitachi Nuclear Energy LLC, submitted license amendment request (LAR) No. 15 to the U.S. Nuclear Regulatory Commission (NRC) for Materials License No. SNM-2500 (LAR 2500-15) for the GE-Hitachi Nuclear Energy LLC Facility at Morris, Illinois. The amendment, if approved, would provide clarification for the storage of liquid and solid waste treatment products.

The NRC staff (staff) performed an acceptance review of your application to determine if the application contained sufficient technical information in scope and depth to allow the staff to complete the detailed technical review. The staff has reviewed your application and concluded that it does provide technical information in sufficient detail to enable the staff to complete its detailed review and make an independent assessment regarding the acceptability of the proposed amendment in terms of regulatory requirements, and the protection of public health and safety, and the environment.

We have established a schedule for the review. The schedule allows for the staff to issue a license amendment in July 2017. Please reference Docket No. 72-1 and CAC No. L25200 in future correspondence related to this licensing action.

S. Murray
