

3/25/15

Dear Judge Spritzer,

The Nuclear Power Energy industry does not want to admit that they do not have a solution for safe disposal of radioactive waste, other than to move it around. Until this is resolved, please do not renew the license of Fermi 2 or approve a new license for Fermi 3. Citizens living within a 50-mile radius of these plants in Monroe, Mich. are in harm's way. As a leader and protector of U.S. Citizens, please do not permit this. Thank you,

David J. Power
