| <u>Number</u> | <u>Date</u> | <u>Number</u> | <u>Date</u> |
| 1. IMC 0308 Att 3 App L | 05/09/14 | IMC 0308 Att 3 App L | 03/28/17 |
| 2. IMC 2515 | 02/01/16 | IMC 2515 | 03/28/17 |

TRAINING: No special training is required for any documents issued with this Change Notice.

REMARKS: IMC 0308 Attachment 3 Appendix L, "Technical Basis Document for B.5.b Significant Determination Process," has been revised to delete incorrect language on page 2 referring to the use of IMC 0609, Appendix M being not the right approach for plant events that are beyond design basis. The SDP program makes no distinction in determining significance of inspection findings whether they be within the design basis or beyond the design basis. Added B.5.b inspection procedures to the reference section.

IMC 2515, "Light-Water Reactor Inspection Program - Operations Phase," has been revised to add section 11.09, "Coordination of Regional Requests for Headquarter Staff to Participate in the Conduct of Inspection Activities." (This revision rescinds draft IMC 0302, "Coordination of Regional Requests for NRR Staff to Participate in the Conduct of Inspection Activities.") References to "Deputy Assistant for Operations, Technical, Budget and Performance Management (TBPM), OEDO" have been replaced with "Deputy Assistant for Operations, OEDO" to reflect organizational change. Section 9 indicated that the integrated inspection plan should project 18 months. IMC 305 indicates a 24 month schedule should be projected. Section 9 revised to indicate that the integrated inspection plan should project as indicated in IMC 0305.
