

March 28, 2017

Ms. Kati R. Austgen
Senior Project Manager, New Plant Licensing
Nuclear Energy Institute
1201 F Street, NW, Suite 1100
Washington, DC 20004

Dear Ms. Austgen:

Thank you for presenting at the U.S. Nuclear Regulatory Commission's (NRC's) 29th Annual Regulatory Information Conference (RIC), held March 15-16, 2017, at the Bethesda North Marriott Hotel and Conference Center in Rockville, Maryland.

Your presentation, "A Perspective on Advanced Reactor Activities," during our technical session T1, "Advanced Reactors: NRC's Readiness" was interesting and informative. Additionally, your perspective on the topic helped to foster a dynamic discussion during the question and answer portion of the session.

The initial feedback received indicates that the RIC was successful in achieving its primary goal of providing stakeholders with important and relevant information specific to safety and security. It also offered an opportunity for participants to interact with colleagues in the nuclear community by gaining and sharing valuable insights and opinions on nuclear regulatory activities.

If interested, video recordings captured during the Opening Session, the Commissioner Plenary Sessions, Special Guest Speaker Session, and the Regional Session, are available to the public at <http://video.nrc.gov/>. Additionally, audio recordings, transcripts, and presentations received while onsite are currently being compiled and will be posted on the RIC website at <http://www.nrc.gov/public-involve/conference-symposia/ric/index.html> in the next few weeks.

As a friendly reminder, the NRC uses your feedback to continuously make positive improvements to the conference and we welcome your insights. Please take a moment to complete the electronic "overall conference" and "technical session" evaluations located on the RIC website above.

Again, thank you for your participation this year and I hope you will join us next year for the 30th Annual RIC, March 13-15, 2018.

Sincerely,

/RA/

John P. Segala
RIC Session Chair
