Subject: Request for additional information re NRC License No. 13-17635-01

Dear Ms. Kress:

In the letter dated September 9, 2016, Vertellus Agriculture & Nutrition Specialties LLC (Vertellus) notified the NRC that it will be acquired by Vertellus Integrated Pyridines LLC and that the transaction will be closed by September 30, 2016. Vertellus also provided that there were no changes to the facilities, equipment, licensed material and use, personnel and duties related to the licensed material, and the radiation safety program.

On December 9, 2016, the NRC issued a letter consent to the proposed license transferring.

In the letter dated January 5, 2017, Vertellus Integrated Pyridines LLC confirmed that the transfer of the ownership was completed on October 31, 2016. However, the letter did not request any changes to NRC License No. 13-17635-01.

During a routine inspection, an NRC inspector, Mr. Harvey, noticed that the licensee has operated under a new name.

If you would like to change the licensee name on the license to a different name, please provide a request in writing with an authorized signature (the licensee or a person duly authorized to act for and on his/her behalf). In addition, please confirm that Vertellus Integrated Pyridines LLC has taken the control of the NRC License No. 13-17635-01 since October 31, 2016 and that it will abide by all constraints, conditions, requirements, representations, and commitments in the NRC License No. 13-17635-01.

You could fax the response to 630-515-1078 or scan and email it as a pdf file to frank.tran@nrc.gov.

If you have any questions regarding the above, please do not hesitate to contact me at 630-829-9623 or reply to this email.

Best regards,

Frank Tran
