SUBJECT: Notice Regarding LLC Conversion and Name Change
SNM-1826

This letter provides Notice regarding a planned conversion of Reuter-Stokes, Inc. (Reuter-Stokes), which will be converted from a corporation organized under the laws of the State of Delaware to a limited liability company organized under the laws of the State of Delaware. The proposed conversion will occur by operation of Delaware law, and it is expected to be effected by making filings with the Secretary of State of Delaware. "Reuter-Stokes, Inc." will change its name to "Reuter-Stokes, LLC", but it will remain the same legal entity after the conversion, under its new name and in its new corporate form.

The U.S. Nuclear Regulatory Commission (NRC) has previously issued threshold determinations in which the NRC staff concluded that a conversion by operation of law does not involve a license transfer that requires NRC's approval. *See, e.g.*, Letter from J.G. Gitter to P.P. Sena dated Sept. 22, 2011 (ADAMS Accession Number ML112430556).

Reuter-Stokes expects to undertake the conversion by the end of May 2017. At that time, its License No. SNM-1826 should be amended to reflect the new name of the company.

In addition, please be advised that as part of a corporate re-organization, Reuter-Stokes expects to experience one or more indirect transfers of control due to having a new intermediary holding company that will require NRC's prior written consent pursuant to 10 CFR 70.36. Within the coming weeks, and prior to any such re-organization, Reuter-Stokes plans to submit one or more license transfer applications requesting consent.
