SUBJECT: CENTRUS - AMERICAN CENTRIFUGE OPERATING,
LLC - TRANSFER OF CERTAIN AMERICAN CENTRIFUGE
LEAD CASCADE FACILITY PROJECT MANAGEMENT AND
CORRESPONDING INSPECTION FUNCTIONS WITHIN THE
U.S. NUCLEAR REGULATORY COMMISSION
(DOCKET NUMBER 70-7003)

The purpose of this memorandum is to provide notification about the transfer of portions of the project management and inspection functions performed by the U.S. Nuclear Regulatory Commission (NRC) staff for the American Centrifuge Lead Cascade Facility (LCF) (License No. SNM-7003) located in Piketon, Ohio. The overall project management function for licensing activities for the LCF will be retained within the NRC's Office of Nuclear Material Safety and Safeguards (NMSS), Division of Fuel Cycle Safety, Safeguards, and Environmental Review (FCSE), Enrichment and Conversion Branch (ECB). The project management functions for reviewing the environmental and security aspects of the LCF decommissioning plan (DP) will be performed by the Environmental Review Branch/FCSE and ECB, respectively. The Materials Decommissioning Branch in the Division of Decommissioning, Uranium Recovery, and Waste Programs (DUWP) in NMSS will manage the safety review of the DP and the associated license

amendment review in accordance with the interoffice work request process. The safety inspection function is being transferred from the NRC's Division of Fuel Facility Inspection in NRC's Region II office to the Division of Nuclear Materials Safety in the NRC's Region III office. Region II will retain the information security inspection function. These transfers are effective as of the date of this letter.

The approach will enable the NRC to efficiently use its staff to review licensing actions and conduct inspections for the LCF. If you or your staff have any questions regarding this transfer, please contact Mr. Yawar Faraz by phone at 301-415-7220, or via e-mail at Yawar.Faraz@nrc.gov.
