Re: **Request for Additional Information Concerning Application for License Renewal
Control No. 592874**

Mr. Wardrobe,

03029170

The purpose of this letter is to respond to your Request for Additional Information e-mail, dated February 17, 2017, in regards to the renewal of NRC License No. 47-24837-01. I have provided responses to the two items you requested information for in red text.

REC RG 1 03 24 17 AM 07 31

1. In your renewal application, #5 – Radioactive Material, it states that you possess an Ohmart Model SHRM, S/N 66836, fixed gauge containing 100 mCi of Cs-137. In your letter to the US NRC dated September 13, 2007, it states that an Ohmart Model SHF1A-0, S/N 66836 fixed gauge containing 10 mCi of Cs-137 was installed by Ohmart Vega Personnel. Please provide written clarification as to the correct model # and activity for that fixed gauge.
You are correct that the OHMART Vega gauge, serial number 66836 and model SHF1-A-0 contains 10 mCi of Cesium-137.
2. Please verify the activity in each fixed gauge that you possess and provide written clarification as to total quantity of activity for each model of fixed gauge that you would like to possess under your license.
Ohmart – Model SH-F1 – Serial M-5900 – 100 mCi
Ohmart – Model SHRM – Serial 1163 – 100 mCi
Ohmart – Model SHF1-A-0 – Serial 66836 – 10 mCi
Kay-Ray – Model 7062B – Serial 28658 – 100 mCi
Listed above is the current quantity of activity at each fixed gauge in our license. We wish to continue to be permitted for the shown amounts as well.

If you have any further questions, please contact me at 304-746-3000.
