Docket Nos. 50-416 & 72-50

License Amendment Request for Administrative Change to Licensee Name

Dear Sir or Madam:

Pursuant to Section 187 of the Atomic Energy Act of 1954, as amended (the Act), and 10 CFR 50.90, Entergy Operations, Inc. (EOI), acting on behalf of itself and the owner licensees of Grand Gulf Nuclear Station (Grand Gulf), System Energy Resources, Inc. and Cooperative Energy, a Mississippi electric cooperative (formerly known as South Mississippi Electric Power Association) (collectively, the Applicants), hereby request that the NRC issue an Order approving proposed changes to the Facility Operating and Independent Spent Fuel Storage Installation Licenses for Grand Gulf, and conforming license amendments.

Effective November 10, 2016, South Mississippi Electric Power Association changed its company name from "South Mississippi Electric Power Association" to "Cooperative Energy, a Mississippi electric cooperative." The corporate name was changed for commercial reasons. The changes proposed herein to the Grand Gulf operating license solely reflects the changed licensee name. This name change is purely administrative in nature. This request does not involve a transfer of control over or of an interest in the license.

Attachment 1 provides a detailed description of the proposed license changes, a technical analysis of the proposed changes, a determination that the proposed changes do not involve a significant hazard consideration, a regulatory analysis of the proposed changes, and an environmental evaluation. Attachment 2 provides a copy of the certificate of amendment for the name change filed with the office of the Mississippi Secretary of State. Attachment 3 provides markups of the affected pages of the Grand Gulf operating license. Attachment 4 provides a clean copy of the affected pages of the Grand Gulf operating license, as amended.

EOI requests approval of the proposed license amendment by April 1, 2018. This date is administrative in nature, and is not required to support any plant activity. Once approved, the

amendment shall be implemented within 90 days following issuance of the amendment.

In accordance with 10 CFR 50.91(b), EOI is providing the State of Mississippi with a copy of this proposed amendment.

This letter contains no new or revised regulatory commitments.

If NRC requires additional information concerning this internal reorganization, please contact me at (601) 368-5516.

Sincerely,

BSF/ljs

LICENSE AMENDMENT REQUEST FOR ADMINISTRATIVE CHANGE TO LICENSEE NAME

LICENSE AMENDMENT REQUEST FOR ADMINISTRATIVE CHANGE TO LICENSEE NAME

I. DESCRIPTION

Pursuant to Section 187 of the Atomic Energy Act of 1954, as amended (the Act), and 10 CFR 50.90, Entergy Operations, Inc. (EOI), acting on behalf of itself and the owner licensees of Grand Gulf Nuclear Station (Grand Gulf), System Energy Resources, Inc. and Cooperative Energy, a Mississippi electric cooperative (formerly known as South Mississippi Electric Power Association) (collectively, the Applicants), hereby request that the NRC issue an Order approving proposed changes to the Facility Operating and Independent Spent Fuel Storage Installation Licenses for Grand Gulf, and conforming license amendments. System Energy Resources, Inc. owns an undivided 90 percent interest in the Grand Gulf nuclear plant, and Cooperative Energy owns an undivided interest in the remaining 10 percent.

Effective November 10, 2016, South Mississippi Electric Power Association changed its company name from "South Mississippi Electric Power Association" to "Cooperative Energy, a Mississippi electric cooperative." The corporate form, state of incorporation, and the identity of the officers and directors, did not change as a result of the name change. A copy of the certificate of amendment that South Mississippi Electric Power Association filed with the Mississippi Secretary of State is provided as Attachment 2. The corporate name was changed for commercial reasons. The changes proposed herein to the Grand Gulf operating license solely reflect the changed licensee name. This name change is purely administrative in nature. This request does not involve a transfer of control over or of an interest in the license. No changes to the Grand Gulf Technical Specifications are requested.

II. PROPOSED LICENSE CHANGES

The proposed changes to the Grand Gulf license will replace references to "South Mississippi Electric Power Association" with "Cooperative Energy, a Mississippi cooperative," or "Cooperative Energy," as appropriate. Attachment 3 provides marked up copies of the affected pages of the Grand Gulf license, and Attachment 4 provides clean copies of those same pages.

III. TECHNICAL ANALYSIS

The proposed amendments are purely administrative in nature. No physical changes will be made as a result of this name change, and there will be no changes to the operations of Grand Gulf. There will be no changes to the technical capabilities, financial qualifications, rights or obligations of EOI, System Energy Resources, Inc., or Cooperative Energy, a Mississippi cooperative (formerly known as South Mississippi Electric Power Association) as a result of the name change. EOI will continue as the licensed operator of Grand Gulf, and all of the licensees' financial responsibilities for Grand Gulf, and their sources of funds to support the plant, will remain the same. Any necessary changes to Grand Gulf site documents will be administrative in nature.

IV. REGULATORY ANALYSIS

The proposed amendments to the Grand Gulf license are being submitted to the NRC pursuant to 10 CFR 50.90. The amendment request is being submitted only for the purpose of updating the affected license documents to reflect a name change to South Mississippi Electric Power Association.

IV.(a) – No Significant Hazards Determination

The licensees have evaluated whether or not a significant hazards consideration is involved with the proposed amendments by addressing the three standards set forth in 10 CFR 50.92(c), “Issuance of amendment,” as discussed below:

- 1 Do the proposed changes “involve a significant increase in the probability or consequences of an accident previously evaluated”?

Response: No.

The proposed amendments simply change the name of a licensee. The name change is purely administrative. None of the functions or responsibility of any of the Grand Gulf licensees will change as a result of the amendments. The proposed amendments do not alter the design, function, or operation of any plant equipment. As such, the accident and transient analyses contained in the facility updated final safety analysis report will not be affected. Therefore, the proposed changes do not involve a significant increase in the probability or consequences of an accident previously evaluated.

- 2 Do the proposed changes “create the possibility of a new or different kind of accident from any accident previously evaluated”?

Response: No.

The proposed amendments simply change the name of a licensee. The proposed name change is purely administrative. None of the functions or responsibility of any of the Grand Gulf licensees will change as a result of the amendments. The proposed amendments do not alter the design, function, or operation of any plant equipment. As such, the accident and transient analyses contained in the facility updated final safety analysis report will not be affected. Therefore, the proposed changes do not create the possibility of a new or different kind of accident from any accident previously evaluated.

- 3 Do the proposed changes “involve a significant reduction in the margin of safety”?

Response: No.

The proposed amendments simply change the name of a licensee. The name change is purely administrative. None of the functions or responsibility of any of the Grand Gulf licensees will change as a result of the amendments. The proposed amendments do not alter the design, function, or operation of any plant equipment. As such, the accident and transient analyses contained in the facility updated final safety analysis report will not be affected. Therefore, the proposed changes do not involve a significant reduction in the margin of safety.

Based on the above evaluations, the licensees conclude that the proposed amendments present no significant hazards under the standard set forth in 10 CFR 50.92(c) and, accordingly, a finding of “no significant hazards determination” is justified.

IV.(b) Applicable Regulatory Requirements/Criteria

The proposed amendment is administrative in nature and involves a corporate name change only. This request is being submitted to the NRC pursuant to 10 CFR 50.90 only for the purpose of updating the affected portions of the Grand Gulf operating license. The proposed change does not alter any technical content of the Grand Gulf facility operating license or any technical content of the Technical Specifications requirements, nor does it have any effect on the Quality Assurance Program description. The corporate status of none of the Grand Gulf licenses has changed.

Under 10 CFR 50.80, “Transfer of licenses,” no license or control of a license for a utilization facility may be transferred, directly or indirectly, to any entity unless the NRC consents in writing. However, licensee name changes do not, by themselves, constitute license transfers. The proposed amendment is purely a name change and does not involve the transfer of any control over the Grand Gulf facility operating license to another entity. There is not a transfer of a license or of an interest in a license within the meaning of 10 CFR 50.80. Standard NRC guidance on this subject is contained in the Standard Review Plan on Power Reactor Licensee Financial Qualifications and Decommissioning Funding Assurance (NUREG-1577, Rev. 1 (1999)) which states, in connection with review of applications for license transfers: “The reviewer should treat applications involving changes of ownership, mergers, formation of holding companies, and other restructuring proposals that go beyond corporate name changes or internal reorganizations as potential transfers of licenses, directly or indirectly, through transfer of control of the license, as subject to section 50.80 review, and not merely subject to a section 50.90 license amendment review. . . . (A name change of a licensee that does not involve license transfer considerations under section 50.80 will be effected by a license amendment issued administratively under section 50.90.)”

In conclusion, based on the discussion in the above sections, (1) there is reasonable assurance that the health and safety of the public will not be endangered by operation in the proposed manner, (2) such activities will be conducted in compliance with the Commission's regulations, and (3) the issuance of the amendment will not be inimical to the common defense and security or to the health and safety of the public.

V. ENVIRONMENTAL CONSIDERATION

The proposed license amendments only change the licensee name and will not result in any change in the types, or any increase in the amounts, of any effluents that may be released off-site, and will not cause any increase in individual or cumulative occupational radiation exposure. Accordingly, the proposed amendment meets the eligibility criterion for categorical exclusion from environmental assessments or environmental impact statements set forth in 10 CFR 51.22(c)(10)(iii) (exempting any license amendment that only “Changes the licensee’s or permit holder’s name, phone number, business or e-mail address”). Therefore, pursuant to 10 CFR 51.22(b), no environmental impact statement or environmental assessment need be prepared in connection with the proposed amendment.

IV. PRECEDENTS

This application is consistent with previous NRC actions in similar circumstances not involving transfers of ownership or control, as follows:

By letter dated April 17, 2009, NextEra Energy submitted an amendment request to the NRC for the Duane Arnold Energy Center to change the name FPL Energy Duane Arnold, LLC to NextEra Energy Duane Arnold, LLC (Accession No. ML091180401). The proposed amendment indicated it was an administrative change. The NRC approved the amendment on November 13, 2009 (Accession No. ML093030113).

By letter dated April 17, 2009, NextEra Energy submitted an amendment request to the NRC for the Point Beach Nuclear Plants, Units 1 and 2, to change the name FPL Energy Point Beach, LLC to NextEra Energy Point Beach, LLC (Accession No. ML091070535). The proposed amendment indicated it was an administrative change. The NRC approved the amendment on May 13, 2010 (Accession No. ML093070509).

By letter dated September 20, 2011, FirstEnergy Nuclear Operating Company submitted an amendment request to the NRC for Beaver Valley Station, Units 1 and 2, Davis-Besse Nuclear Power Station, Unit 1, and Perry Nuclear Power Plant, Unit 1 to change the company name to FirstEnergy Nuclear Generation, LLC (Accession No. ML112640246). The proposed amendment indicated it was an administrative change. The NRC approved the amendment on October 2, 2012 (Accession No. ML12221A413).

By letter dated December 21, 2012, DTE Energy Company submitted an amendment request to the NRC for Enrico Fermi Atomic Power Plant, Unit 1, to change the company name to DTE Electric Company (Accession No. ML10332A037). The proposed amendment indicated it was an administrative change. The NRC approved the amendment on August 8, 2013 (Accession No. ML13204A123).

**CERTIFICATE OF AMENDMENT TO ARTICLES OF INCORPORATION OF
SOUTH MISSISSIPPI ELECTRIC POWER ASSOCIATION**

This Certificate of Amendment to the Articles of Incorporation of South Mississippi Electric Power Association, a Mississippi not-for-profit corporation (the "Company"), prepared and executed in accordance with Mississippi Code Annotated Section 77-5-215 certifies and evidences the following:

WHEREAS, a meeting of the Board of Directors of the Company was held on May 18, 2016, in Jackson, Mississippi at the Mississippi Electric Power Association's office; and

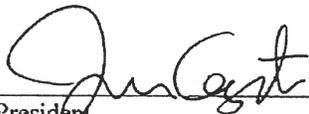

WHEREAS, notice of such meeting of the Board of Directors was sent to the Company's members more than thirty (30) days prior to the date of the meeting and such notice set forth the date, time, location and purpose of the meeting and described the proposed amendment to the Company's articles of incorporation, namely changing the Company's name to "Cooperative Energy, a Mississippi electric cooperative"; and

WHEREAS, all members of the Company's Board of Directors were present at such meeting, as were representatives from all Members of the Company, and upon a proper motion the Board of Directors and all Members of the Company unanimously voted to change the name of the Company to Cooperative Energy, a Mississippi electric cooperative.

NOW, THEREFORE, the undersigned President and Secretary of the Company do hereby certify and affirm that they have been duly and properly authorized to amend the articles of incorporation to reflect the change in name of the Company, to execute this certificate and to file the

amendment, this certificate, and take any other action necessary to carry out the approved name change to Cooperative Energy, a Mississippi electric cooperative.

WITNESS THE SIGNATURES of the President and Secretary thereof, under authority given them by unanimous vote of the Board of Directors and Members in accordance with the law on the 18th day of May, 2016.

President

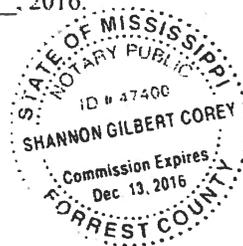

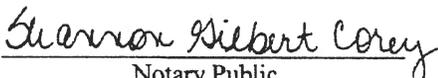

Secretary

STATE OF MISSISSIPPI
COUNTY OF FORREST

Before me, the undersigned Notary Public in and for said county, personally came and appeared James Compton, President, and Mack Mauldin, Secretary, who then and there stated on oath and acknowledged that they were acting for South Mississippi Electric Power Association and under specific authority conferred on them by the Board of Directors and Members thereof, they did execute and deliver the foregoing certificate and amendment.

IN TESTIMONY whereof, witness my signature and official seal this the 8th day of November, 2016.

Notary Public

ENERGY OPERATIONS, INC.

SYSTEM ENERGY RESOURCES, INC.

SOUTH MISSISSIPPI ELECTRIC POWER ASSOCIATION

ENERGY MISSISSIPPI, INC.

DOCKET NO. 50-416

GRAND GULF NUCLEAR STATION, UNIT 1

FACILITY OPERATING LICENSE

(now renamed Cooperative Energy, a Mississippi electric cooperative (Cooperative Energy)),

License No. NPF-29

1. The Nuclear Regulatory Commission (the Commission or the NRC) has found that:
 - A. The application for license filed by Mississippi Power & Light Company (MP&L), (now renamed Energy Mississippi, Inc.), for itself and Middle South Energy, Inc., (now renamed System Energy Resources, Inc. (SERI) and South Mississippi Electric Power Association (SMEPA), as amended, (hereinafter referred to as the licensees) complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's regulations set forth in 10 CFR Chapter I, and all required notifications to other agencies or bodies have been duly made;
 - B. Construction of the Grand Gulf Nuclear Station, Unit 1 (the facility), has been substantially completed in conformity with Construction Permit No. CPPR-118 and the application, as amended, the provisions of the Act, and the regulations of the Commission;
 - C. The facility will operate in conformity with the application, as amended, the provisions of the Act, and the regulations of the Commission (except as exempted from compliance in Section 2.D. below);
 - D. There is reasonable assurance: (i) that the activities authorized by this operating license can be conducted without endangering the health and safety of the public; and (ii) that such activities will be conducted in compliance with the Commission's regulations set forth in 10 CFR Chapter I (except as exempted from compliance in Section 2.D. below);

COOPERATIVE ENERGY,
A MISSISSIPPI ELECTRIC
COOPERATIVE

- E. Entergy Operations, Inc. (EOI), is technically qualified to engage in the activities authorized by this operating license in accordance with the Commission's regulations set forth in 10 CFR Chapter I;
 - F. The licensees have satisfied the applicable provisions of 10 CFR Part 140, "Financial Protection Requirements and Indemnity Agreements," of the Commission's regulations;
 - G. The issuance of this license will not be inimical to the common defense and security or to the health and safety of the public;
 - H. After weighing the environmental, economic, technical, and other benefits of the facility against environmental and other costs and considering available alternatives, the issuance of Facility Operating License No. NPF-29, subject to the conditions for protection of the environment set forth in the Environmental Protection Plan attached as Appendix B, is in accordance with 10 CFR Part 51 of the Commission's regulations and all applicable requirements have been satisfied; and
 - I. The receipt, possession, and use of source, by-product and special nuclear material as authorized by this license will be in accordance with the Commission's regulations in 10 CFR Parts 30, 40, and 70.
2. Based on the foregoing findings regarding this facility and pursuant to Commission Order CLI-84-19, dated October 25, 1984, License NPF-13, as amended, is superseded by this Facility Operating License NPF-29 which is hereby issued to Entergy Operations, Inc., Entergy Mississippi, Inc., System Energy Resources, Inc., and ~~South Mississippi Electric Power Association~~ to read as follows:
- A. This license applies to the Grand Gulf Nuclear Station (GGNS), Unit 1, a boiling water nuclear reactor and associated equipment (the facility), owned by System Energy Resources, Inc., and ~~South Mississippi Electric Power Association~~ and operated by Entergy Operations, Inc. The facility is located in Claiborne County, Mississippi, and is described in the licensees' "Final Safety Analysis Report," as supplemented and amended, and in the licensees' Environmental Report, as supplemented and amended.
 - B. Subject to the conditions and requirements incorporated herein, the Commission hereby licenses:
 - (1) Entergy Operations, Inc. (EOI) pursuant to Section 103 of the Act and 10 CFR Part 50, to possess, use, and operate the facility at the designated location in Claiborne County, Mississippi, in accordance with the procedures and limitations set forth in this license;
 - (2) System Energy Resources, Inc., and ~~South Mississippi Electric Power Association~~ to possess, but not operate, the facility at the designated location in Claiborne County, Mississippi, in accordance with the procedures and limitations set forth in this license;

License No. NPF-29

1. The Nuclear Regulatory Commission (the Commission or the NRC) has found that:
 - A. The application for license filed by Mississippi Power & Light Company (MP&L), (now renamed Entergy Mississippi, Inc.), for itself and Middle South Energy, Inc., (now renamed System Energy Resources, Inc. (SERI)) and South Mississippi Electric Power Association (SMEPA), (now renamed Cooperative Energy, a Mississippi electric cooperative (Cooperative Energy)), as amended, (hereinafter referred to as the licensees) complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's regulations set forth in 10 CFR Chapter I, and all required notifications to other agencies or bodies have been duly made;
 - B. Construction of the Grand Gulf Nuclear Station, Unit 1 (the facility), has been substantially completed in conformity with Construction Permit No. CPPR-118 and the application, as amended, the provisions of the Act, and the regulations of the Commission;
 - C. The facility will operate in conformity with the application, as amended, the provisions of the Act, and the regulations of the Commission (except as exempted from compliance in Section 2.D. below);
 - D. There is reasonable assurance: (i) that the activities authorized by this operating license can be conducted without endangering the health and safety of the public; and (ii) that such activities will be conducted in compliance with the Commission's regulations set forth in 10 CFR Chapter I (except as exempted from compliance in Section 2.D. below);

- E. Entergy Operations, Inc. (EOI), is technically qualified to engage in the activities authorized by this operating license in accordance with the Commission's regulations set forth in 10 CFR Chapter I;
 - F. The licensees have satisfied the applicable provisions of 10 CFR Part 140, "Financial Protection Requirements and Indemnity Agreements," of the Commission's regulations;
 - G. The issuance of this license will not be inimical to the common defense and security or to the health and safety of the public;
 - H. After weighing the environmental, economic, technical, and other benefits of the facility against environmental and other costs and considering available alternatives, the issuance of Facility Operating License No. NPF-29, subject to the conditions for protection of the environment set forth in the Environmental Protection Plan attached as Appendix B, is in accordance with 10 CFR Part 51 of the Commission's regulations and all applicable requirements have been satisfied; and
 - I. The receipt, possession, and use of source, by-product and special nuclear material as authorized by this license will be in accordance with the Commission's regulations in 10 CFR Parts 30, 40, and 70.
2. Based on the foregoing findings regarding this facility and pursuant to Commission Order CLI-84-19, dated October 25, 1984, License NPF-13, as amended, is superseded by this Facility Operating License NPF-29 which is hereby issued to Entergy Operations, Inc., Entergy Mississippi, Inc., System Energy Resources, Inc., and Cooperative Energy to read as follows:
- A. This license applies to the Grand Gulf Nuclear Station (GGNS), Unit 1, a boiling water nuclear reactor and associated equipment (the facility), owned by System Energy Resources, Inc., and Cooperative Energy and operated by Entergy Operations, Inc. The facility is located in Claiborne County, Mississippi, and is described in the licensees' "Final Safety Analysis Report," as supplemented and amended, and in the licensees' Environmental Report, as supplemented and amended.
 - B. Subject to the conditions and requirements incorporated herein, the Commission hereby licenses:
 - (1) Entergy Operations, Inc. (EOI) pursuant to Section 103 of the Act and 10 CFR Part 50, to possess, use, and operate the facility at the designated location in Claiborne County, Mississippi, in accordance with the procedures and limitations set forth in this license;
 - (2) System Energy Resources, Inc., and Cooperative Energy to possess, but not operate, the facility at the designated location in Claiborne County, Mississippi, in accordance with the procedures and limitations set forth in this license;
