This letter is to advise you that the NRC staff has reviewed your submittal dated April 14, 1983, with regard to the habitability and location of the Emergency Operations Facility (EOF) for the McGuire and Catawba Nuclear Stations to meet the requirements of Table 1 of Supplement 1 to NUREG-0737. Our review indicates that these stations comply with these requirements.

Approval of the other features of the EOF and the acceptability of all your other Emergency Response Facilities (ERFs) will be determined during a post-implementation appraisal to be conducted at the McGuire and Catawba Nuclear Stations by an NRC team under the direction of the Regional Administrator when your ERFs have been completed.

Sincerely,

Elinor G. Adensam, Chief
Licensing Branch No. 4
Division of Licensing
