GE Hitachi (GEH)

M. Feyrer
D. Hart
S. Murray

Call Summary

On March 17, 2017, the NRC staff from the Office of Nuclear Material Safety and Safeguards, Division of Fuel Cycle Safety Safeguards and Environmental Review, and Division of Decommissioning, Uranium Recovery, and Waste Programs held a conference call with General Electric- Hitachi (GEH) staff to discuss a number of NRC staff clarification questions for GEH regarding the February 6, 2017, revised Decommissioning Funding Plan (DFP) for the GE Vallecitos Nuclear Center. On March 15, 2017, in preparation for this call, the NRC staff transmitted draft questions to GEH. During the call, the NRC staff discussed its clarification questions regarding GEH's revised DFP to ensure GEH's clear understanding of the questions and ensure that GEH adequately responded. The NRC staff requested GEH to provide its responses within 10 days after the call. Following the call, the NRC staff transmitted the questions to GEH via electronic communication dated March 17, 2017 (see Attachment). The call was adjourned at around 2:30 PM.

Action Items

For NRC staff: None.

For GEH: Provide responses to the NRC staff clarification questions.

Attachment (Non Public)

U.S. Nuclear Regulatory Commission Staff Clarification Questions on GE Vallecitos February 7, 2017, Revised Decommissioning Funding Plan.
