II. Discussion

Omaha Public Power District is the holder of Renewed Facility Operating License No. DPR-40 for FCS. The license provides, among other things, that the facility is subject to all rules, regulations, and orders of the NRC now or hereafter in effect. The facility consists of one pressurized-water reactor located in Washington County, Nebraska. By letter dated August 25, 2016 (ADAMS Accession No. ML16242A127), OPPD submitted a certification to the NRC indicating it would permanently cease power operations at FCS on October 24, 2016. On October 24, 2016, OPPD permanently ceased power operation at FCS. On November 13, 2016 (ADAMS Accession No. ML16319A254), OPPD certified that it had permanently defueled the FCS reactor vessel.

On March 30, 2017, OPPD submitted the PSDAR and DCE for FCS in accordance with § 50.82(a)(4)(i) of title 10 of the *Code of Federal Regulations* (ADAMS Accession No. ML17089A759). The PSDAR includes a description of the planned decommissioning activities, a proposed schedule for their accomplishment, the site-specific DCE (submitted concurrently), and a discussion that provides the basis for concluding that the environmental impacts associated with the site-specific decommissioning activities will be bounded by appropriate, previously issued generic and plant-specific environmental impact statements.

III. Request for Comment and Public Meeting

The NRC is requesting public comments on the PSDAR and DCE for FCS. The NRC will conduct a public meeting to discuss the PSDAR and DCE and receive comments on Wednesday, May 31, 2017, from 6 p.m. until 9 p.m., CDT, at the Double Tree Hotel, 1616 Dodge Street, Omaha, Nebraska 68102. The NRC requests that comments that are not

provided during the meeting be submitted as noted in section I., "Obtaining Information and Submitting Comments" of this document in writing by July 7, 2017.

Dated at Rockville, Maryland, this 7th day of April 2017.

For the Nuclear Regulatory Commission.
