Docket No. 50-275

APR 19 1971

Pacific Gas and Electric Company  
 ATTN: Mr. Richard H. Peterson  
 Senior Vice President and  
 General Counsel  
 245 Market Street  
 San Francisco, California 94106

Gentlemen:

On December 24, 1970, we forwarded to you a copy of the Commission's December 4, 1970 Statement of General Policy for implementation of the National Environmental Policy Act in its licensing proceedings (35 FR 18469). In regard to facilities for which construction permits previously have been issued without detailed statements, the revised Appendix D to 10 CFR Part 50 requires, among other things, that holders of construction permits must, as soon as practicable, file an Environmental Report with the AEC discussing the environmental considerations enumerated in paragraph 1 of the revised regulation. As an aid in preparing Environmental Reports, we forwarded to you on March 12, 1971, a copy of a draft "Guide to the Preparation of Environmental Reports for Nuclear Power Plants."

We have not received your Environmental Report for the Diablo Canyon Nuclear Power Plant, Unit 1, and would appreciate knowing when you intend to submit the required report.

Sincerely,

(Signed) H. L. Price

Harold L. Price  
 Director of Regulation
