MEMORANDUM TO: Kevin Hsueh, Chief  
Licensing Processes Branch  
Division of Policy and Rulemaking  
Office of Nuclear Reactor Regulation

FROM: Jonathan G. Rowley, Project Manager */RA/*  
Licensing Processes Branch  
Division of Policy and Rulemaking  
Office of Nuclear Reactor Regulation

SUBJECT: SUMMARY OF MARCH 22, 2016, CLOSED PRE-SUBMITTAL  
MEETING WITH PRESSURIZED WATER REACTOR OWNERS  
GROUP FOR A TOPICAL REPORT REGARDING SOLID STATE  
PROTECTION SYSTEM GENERAL WARNING ALARM INPUT  
SIGNALS

On March 22, 2016, a closed pre-submittal meeting was held between the U.S. Nuclear Regulatory Commission (NRC) staff and the Pressurized Water Reactor Owners Group (PWROG). PWROG was developing a topical report (TR) for submittal to the NRC for review and approval. The NRC approved TR would be used by licensees to provide technical and licensing bases justification for implementing proposed changes to remove the solid state protection system general warning alarm non-safety related input signals and the modification of the pulled card interlock. The PWROG discussed the project approach, timeline, and obtained preliminary feedback from the NRC.

A list of attendees is enclosed. The PWROG presentation is not publically available because it was determined to be proprietary in nature.

Project No. 694
