Re: Docket No. 50-275, OL-DPR-76
Docket No. 50-323
Diablo Canyon Units 1 and 2
Generic Letter No. 83-10c

Dear Mr. Eisenhut:

Generic Letter No. 83-10c, regarding the resolution of TMI Action Item II.K.3.5, "Automatic Trip of Reactor Coolant Pumps (RCP)", requires that we provide our plans and schedules for resolution of this issue.

PGandE, as a member of the Westinghouse Owners Group (WOG), will review the WOG recommendation on this issue and if acceptable will proceed to integrate it into our plans and schedules. We plan to submit our integrated schedule by the end of May 1983.

It is also our understanding that because the applicable SERs have been written for Diablo Canyon Units 1 and 2, PGandE is not required to formally submit the analyses which support either RCP trip setpoints or the decision to leave the RCP operational for all events. These analyses will be available for an NRC inspection.
