Gentlemen:

Subject: NRC Inspection of Diablo Canyon Units 1 and 2

This refers to the routine inspection conducted by Messrs. P. P. Narbut and K. E. Johnston during the period of March 5 through April 22, and May 5, 1989. This inspection examined your activities as authorized by NRC License Nos. DPR-80 and DPR-82. At the conclusion of the inspection, the inspector discussed their findings with members of your staff.

Areas examined during this inspection are described in the enclosed inspection report. Within these areas, the inspection consisted of selective examinations of procedures and representative records, interviews with personnel, and observations by the inspectors.

Severity Level V violations were identified as discussed in the enclosed report. The enforcement discretion permitted pursuant to 10 CFR Part 2, Appendix C has been exercised, and a Notice of Violation was not issued for these violations. The effectiveness of your corrective actions associated with these violations will be examined during future routine inspections.

In accordance with 10 CFR 2.790 (a), a copy of this letter and the enclosures will be placed in the NRC Public Document Room.

Should you have any questions concerning this inspection, we will be pleased to discuss them with you.

Sincerely,
