Hi Mr. Reichard,

I'd like to provide notification that COL Deborah L. Whitmer is now the Commander of Walter Reed Army Institute of Research (WRAIR). When WRAIR's Materials License was issued, COL Colin M. Greene was the Acting Commander and although the change in leadership is not one of the listed actions requiring an amendment, I believe that the updated information would be helpful for NRC's records and when drafting correspondence to WRAIR such as informational notices and security advisories.

Please let me know if I can provide any additional information.

Sincerely,
Jacob
