Discussion

A. General Information

The NRC performs periodic reviews of generic communications and withdraws them when they no longer provide useful information or are superseded by technological innovations or updated guidance. A withdrawal includes the original generic communication and any

supplements or revisions. The NRC is currently publishing withdrawals of generic communications on a quarterly basis.

Withdrawal of the original generic communication and supplements, if applicable, will not affect the public's ability to obtain this information. The original generic communication and supplements will remain accessible through ADAMS and the NRC'S generic communications Web site. The NRC's generic communication Web site will be updated to reflect the generic communications status as withdrawn. The generic communications Web site is accessible at <https://www.nrc.gov/reading-rm/doc-collections/gen-comm/>.
